

Montague Street traffic heading west to Bolte Bridge / West Gate Bridge

There are now two westbound entry-ramps from Montague Street. The original entry-ramp is designated for drivers travelling to the West Gate Bridge. The recently-opened entry-ramp is designated for drivers travelling to the airport via Bolte Bridge and Todd Road (Shell Service Centre).

If you are coming out of the City via the Charles Grimes Bridge:

- The two right hand lanes take traffic to West Gate Bridge
- The left hand lane takes traffic to Todd Road and Bolte Bridge.

If you are coming from South Melbourne via Normanby Road:

- The first left turn will take traffic to Todd Road and Bolte Bridge
- The second left turn takes traffic to West Gate Bridge.

Drivers are encouraged to read the new signs on Montague Street and ensure they are in the correct lane, depending on their destination.
