

Traffic heading eastbound from West Gate Bridge to Kings Way

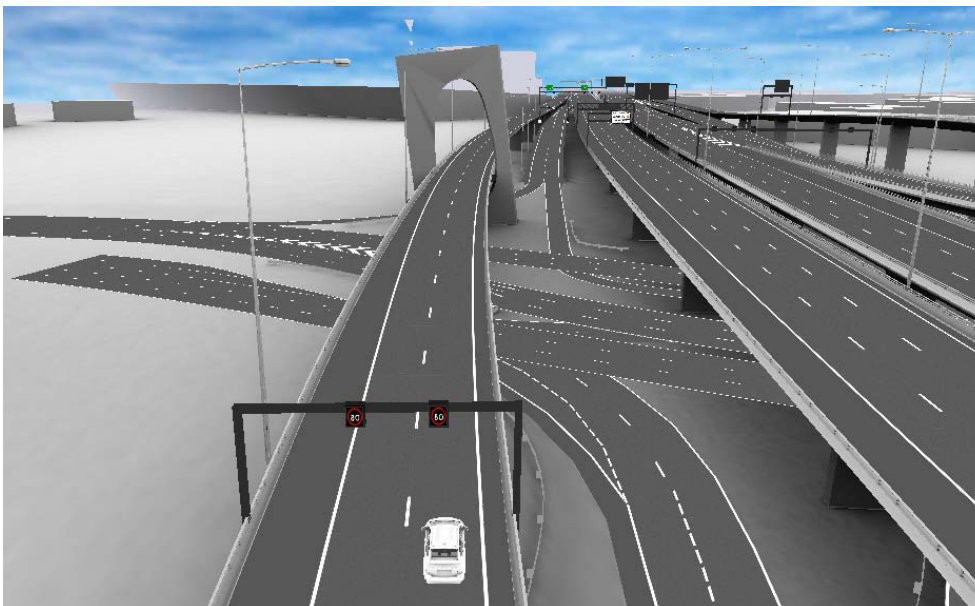

If you are heading from the West Gate Bridge to Kings Way, stay in one of the left hand lanes on the West Gate Freeway.

You will need to follow the green signs that say 'Kings Way'. The new eastbound exit-ramp is located before the Montague Street exit-ramp. It is approximately 1 km past the Bolte Bridge overpass.

You will know if you are going in the right direction if you pass through one of the portals.

Continue to follow the signs that say “Kings Way”. There will be barriers running along the right side to separate Kings Way traffic from traffic heading into the CityLink Tunnels.
